STATEMENT OF OBJECTS AND REASONS

India is the third largest producer of tobacco in the world with an average annual production of 350 million kilograms and sixth among the tobacco exporting countries with an average annual export of about 55 million kilograms. Virginia tobacco is the most important variety grown in the country (to the extent of about 100 to 125 million kilograms annually) and over fifty per cent. of the production is exported, making India the second largest exporter of virginia tobacco in the world.

2. For effectively regulating the tobacco industry, particularly virginia tobacco industry and for maintaining and improving exports and thereby augmenting the country's foreign exchange resources, it is absolutely necessary to take various measures right from the stage of production. The production of tobacco, particularly the virginia tobacco has to be planned carefully to suit specified needs of the markets by ensuring the requisite standards of quality and the fluctuations in production and prices have to be minimised. It is also necessary that services and facilities for research, marketing, warehousing, publicity and propaganda abroad and market intelligence in competing countries should be extended to this important export-oriented industry in an integrated manner. At present, there is no single authority in India which can deal with the various aspects of this industry in an integrated and effective manner. There are as many as five different independent organisations looking after, or exercising control over the movement, production, research, extension, quality control and export of tobacco. This is not conducive to the integrated approach which is needed for the effective regulation and development of the industry. In order, therefore, to provide the much-needed integrated institutional set-up, the question of bringing tobacco industry under the control of the Union and setting up a Tobacco Board has been under consideration of the Government for some time past. A number of Members of Parliament and Members of State Legislatures have been voicing demand for such a Board. The State Governments have been consulted and they also seem to favour the constitution of such a Board.

3. It is, therefore, proposed to provide for the development of the tobacco industry under the control of the Union and for the establishment of a Board to be known as the Tobacco Board. The Board is proposed to be constituted, among others, with Members of Parliament, representatives of the Ministries of Central Government dealing with Agriculture, Commerce, Finance and Industrial Development, Indian Council of Agricultural Research, growers of tobacco, dealers or exporters of tobacco and tobacco products, manufacturers of tobacco products, and of the representatives of the tobacco growing States. It is proposed to vest the Board with adequate powers to deal with various aspects of the industry.

4. The finances of the Board will consist of the fees collected by it, grants or loans made by the Central Government or by any person and the sums realised by the Board in the discharge of its functions.

5. To ensure that the Board has adequate resources, it is proposed to undertake separately legislation for the imposition, by way of cess, of a duty of excise on virginia tobacco which is produced in India and a duty of customs on all tobacco which is exported and for making over the proceeds, after due appropriation by Parliament by law, to the Board.

6. It is also proposed to take power for the Central Government to prohibit or control the imports and exports of tobacco and tobacco products either generally or in specified classes of cases.

7. The Bill seeks to achieve the above objects. The notes on clauses explain in detail the main provisions thereof.

Sub-clauses (1), (3) and (4) of clause 4 of the Bill provide respectively for the establishment offices and constitution of the Tobacco Board. Clause 5 provides that the Chairman of the Board shall be entitled to such salary and allowances as may be fixed by the Central Government while the allowances payable to the other members will have to be prescribed by rules under clause 32(2) (b) of the Bill. Clause 6 provides for the appointment of the Executive Director, Secretary and other officers and employees of the Board. The Executive Director and the Secretary will be entitled to such salaries and allowances as may be determined by the Central Government. The other officers and employees of the Board will be entitled to such salaries and allowances as may be provided for by regulations under clause 33(2)(d). Provision has been made in clause 33(2)(c) for the making of regulations in regard to the travelling and other allowances payable to persons associated with the Board under sub-clause (8) of clause 4 or co-opted to Committees of the Board under sub-clause (2) of clause 7. Provision has been made in clause 32(2)(q) for prescribing by rules the remuneration and other allowances payable to the person or persons who may be appointed by the Central Government under clause 9(2)(b) to exercise and perform the powers and duties of the Board when the Board is dissolved.

2. Clause 8 provides for the functions of the Board and these include, *inter alia*, the purchasing and selling of tobacco from growers in certain circumstances and sponsoring, assisting, co-ordinating or encouraging scientific, technological and economic research for the promotion of tobacco industry.

3. The aforementioned provisions of the Bill involve expenditure towards—

(a) payment of salaries, allowances, etc., of the Chairman and members of the Board, persons associated with the Board or co-opted to the Committees of the Board, persons appointed to exercise the powers and duties of the Board when the Board is dissolved and officers and employees of the Board; and

(b) meeting other administrative expenses of the Board including expenses for discharging its functions.

4. It is not possible at the present stage to indicate precisely the expenditure involved. However, it is estimated that a non-recurring expenditure of Rs. 2,00,000 is likely to be incurred initially on the establishment of the Board. A recurring expenditure of about Rs. 10,00,000 per annum is likely to be incurred by the Board. When the Board expands its activities, its expenditure may increase. As already mentioned, the Board will have to meet its expenditure from its own fund and any payments made to the Board by the Central Government will have to be made only after due appropriation made by Parliament by law in that behalf.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 30 of the Bill seeks to empower the Central Government to suspend or relax by notification the operation of any provisions of the legislation in any area for a specified period. This power is necessary to meet varying local circumstances and contingencies which cannot now be visualised. It is made clear that the power can be exercised only when it is necessary or expedient in the public interest. As in the case of rules, provision is made for laying of such notifications before each House of Parliament and for their modification or annulment by Parliament. In the circumstances, the delegation of legislative power is of a normal character.

2. Clause 32 of the Bill gives power to the Central Government to make rules to carry out the purposes of the legislation. The matters in respect of which rules may be made *inter alia* relate to the powers and functions of the Vice-Chairman, the term of office and other conditions of service of the members and the procedure to be followed at the meetings of the Board, the principles and procedure to be followed for granting, refusing or cancelling certificates of registration to growers, curers, exporters, packers and auctioneers of, and dealers in, tobacco, including the fees payable in respect of such registration, the preparation of budget estimates of receipts and expenditure of the Board, the form and manner in which the accounts of the Board are to be maintained, the conditions subject to which, and the manner in which, contracts may be entered into by or on behalf of the Board and other matters of a procedural or administrative nature. The delegation of legislative power under the clause is, therefore, of a normal character.

3. Clause 33 of the Bill empowers the Board to make regulations not inconsistent with the legislation and the rules made thereunder for enabling the Board to discharge its functions. Particular matters in respect of which the Board may make regulations have been detailed in sub-clause (2) of the clause. These matters *inter alia* relate to the procedure to be followed for the transaction of business at meetings of the Committees appointed by the Board, the travelling and other allowances payable to the members of the Committees appointed by, or persons associated with, the Board, the conditions of service of officers and employees (other than those appointed by the Central Government) of the Board. These are matters of detail and it is difficult to provide for the same in the Bill itself. Under sub-clause (3) of clause 33, no regulation made by the Board will have effect until it has been approved by the Central Government. As the matters in respect of which regulations may be made under clause 33 are matters of procedure or administrative detail, the delegation of legislative power if of a normal character.

Secretary-General.
